

MaxiBoost PASTE

Quick Oats • Maple Syrup • Whey Powder

1

Whey Powder

High calorie content and protein combined is vital for all performance and recovering pets. Easily digestible makes it a quick absorbing nutrient.

2

Quick Oats

Cooked oats allows for easier digestibility and faster energy release. Healthier option compared to sugars.

3

Quick Barley

Cooked barley supplies carbohydrates that are easy to digest and may prevent blood sugar spikes. Added fibre also helps with digestion.

4

Maple Syrup

Natural sugars are easier to digest and absorb into the bloodstream, also allows for a healthier option than sugar or dextrose.

5

L-Carnitine

Essential amino acid to help with muscle recovery after events or exercise. Also helps with fat metabolism.

7

Taurine

Amino acid that is vital for heart health and helps protect the heart muscles in strenuous exercise.

6

Whole Egg Powder

Provides high levels of protein and fat in a very digestible and tasty form. One of the best nutrient sources for all pets, especially in recovery.

8

Creatine

Improves muscle strength and performance.

30ml | 60ml

High Calorie Paste

Shelf life - 18 Months*

Dogs

Cats

MaxiBoost Paste is a palatable, high calorie paste made for active dogs and cats. It provides high levels of digestible calories. Also perfect for pets in recovery that needs additional energy and nutrients.

Composition:

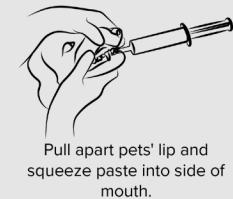

De-ionised Water, Whey Powder, Quick Oats Flour, Quick Barley Flour, Maple Syrup, Malt Powder, L-Carnitine, Whole Egg Powder, Taurine, Guar Gum, Sodium Benzoate, Creatine.

Storage:

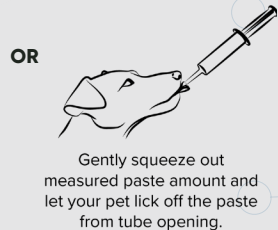

- Store in a cool, dry place.
- Avoid direct sunlight.
- Store in an airtight container.
- Keep container tightly closed.

Directions For Use:

Use average 1ml per 3kg body weight of MaxiBoost 30 minutes before an event. Can be given maximum 3 times per day with 6 hour intervals. Not advised for pets that suffer from bloodsugar imbalances or diabetes. Consult your veterinarian for best advice.

Pull apart pets' lip and squeeze paste into side of mouth.

Gently squeeze out measured paste amount and let your pet lick off the paste from tube opening.
