

MaxiFertile

Omega-3 • Folic Acid • Maca Root

1

Omega-3 Fatty Acids

Supports reproductive health in dogs, enhancing sperm quality and motility in males, and promoting hormone balance and uterine health in females.

2

L-Arginine

Significantly aids sperm production and motility in male dogs, while also enhancing blood flow to reproductive organs in both genders, boosting fertility.

3

Zinc

Zinc is essential plays key role in sperm production and testosterone metabolism. In females, it supports proper hormone regulation and follicle development.

4

Vitamin E

Vitamin E, a potent antioxidant, protects sperm cells, enhancing quality in male dogs, and supports uterine health in females for implantation.

5

Folic Acid

Essential for DNA synthesis and cell division, crucial for fertility in both sexes. In males, it prevents sperm chromosomal abnormalities; in females, it supports egg development and implantation.

7

Selenium

Selenium supports healthy sperm production and motility in male dogs and acts as an antioxidant, protecting reproductive cells. In females, it supports ovarian function.

9

Ginseng

Traditionally enhances libido and reproductive performance in both sexes, improving sperm quality and testosterone levels in males and balancing hormones in females.

6

B-vitamins (B6, B12)

B-vitamins are essential for reproductive health in both male and female dogs, aiding hormone regulation, energy metabolism, and DNA synthesis, vital for fertility.

8

L-Carnitine

Involved in energy metabolism, improves sperm quality and motility, and supports healthy embryo development in females by aiding fatty acid transport.

10

Maca Root

An adaptogenic herb, enhances fertility in both male and female dogs, improving sperm production and motility in males and supporting hormonal balance and ovarian function in females.

SIZES

250g | 500g | 1kg

Fertility

As a nutritional aid in optimizing and enhancing overall fertility in both male and female dogs. Careful selection of beneficial and balanced ingredients target both male and female reproductive health.

Active Ingredients per 5 grams:

Omega-3 Fatty Acids	400mg
DHA	127.8mg
EPA	80mg
L-Arginine	250mg
Zinc Gluconate	750mg
Selenium	0.035mg
Vitamin E	125mg
Folic Acid	3.125mg
L-Carnitine	500mg
Vitamin B1	50mg
Vitamin B6	5mg
Vitamin B12	0.5mg
Siberian Ginseng	25mg
Maca Root	50mg

Inactive Ingredients:

Rice Flour, Refined Fish Oil, Liver Digest, Egg Powder, Lecithin

Daily Feeding Guidelines:

Animal Size	Amount of Level Scoops	Weight (g)
Toy Dog and Cat 0-5 kg		0.25g
Small Dog 5-11 kg		5g
Medium Dog 11-22 kg		10g
Large Dog 22-45 kg		15g
Extra Large Dog Over 45 kg		20g
