

MaxiFlora PASTE

L-Glutamine • E. Faecium • MOS & FOS

1

Enterococcus faecium

A very effective probiotic used to treat most digestive issues & restore beneficial microflora in the digestive tract.

2

Bacillus coagulans

Is another beneficial strain of probiotic bacteria that can multiply easily and assist in digestive stabilising. Very effective in most species.

3

Pure Inulin

Added as prebiotic to help feed and sustain probiotic flora in the gut. Contains high levels of FOS.

4

MOS

Mannan-oligosaccharides is another form of prebiotics to help sustain and feed probiotic flora. Very stable and long sustaining.

5

Vitamin E

A natural preservative that assists to keep all ingredients from oxidising prematurely. It is also a vital vitamin for all animals.

7

Kaolin

A natural clay that helps bind pathogens, toxins and excess moisture in the colon. Also assist MaxiFlora Paste to give it the paste texture we need.

6

Lecithin

Helps soothe the gut lining and assists with colon movement.
