

MaxiJoint ULTRA

ASU • Collagen Type II • Chondroitin

1

Chondroitin Sulfate

Made of chicken cartilage, chondroitin sulphate is a great "joint-building block" & helps build up new cartilage in the joints.

2

Glucosamine Hydrochloride

A more bioavailable type of Glucosamine that is also a building block for joints & helps with pain relief in damaged joints.

3

Green Lipped Mussel Extract

Green Lipped or Shelled Mussel extract is a very potent anti-inflammatory. Relieves joint pain & inflammation.

4

Omega IT

Our in-house cold-water fish oil blend for increased Omega-3 to help soothe & lubricate joints whilst keeping skin & coat in excellent condition. Supplies important digestible fats & oils.

5

Curcumin Extract

Pure Curcumin extract is used as a potent anti-inflammatory that is highly absorbed (bioavailable) and helps with relieving pain & discomfort.

6

Collagen Type II

Even at low doses, Hydrolysed Collagen Type II assists in joint lubrication, preventing degeneration & reducing inflammation.

7

Avocado Soybean Unsaponifiables

Blocks pro-inflammatory chemicals & prevents deterioration of cells in joints. May also help with regeneration of cartilage & connective tissues.

SIZES
250g | 500g | 1kg

Joint Support

The ultimate nutritional aid in the prevention and management of joint related conditions in dogs and cats. Over 7 actives help support cartilage in strenuous conditions. A must have for all working, showing and very active dogs.
