

MaxiJoint

Glucosamine • Chondroitin • Collagen Type II

1

Chondroitin Sulfate

Made of chicken cartilage, chondroitin sulphate is a great "joint-building block" & helps build up new cartilage in the joints.

2

Glucosamine Hydrochloride

A more bioavailable type of Glucosamine that is also a building block for joints & helps with pain relief in damaged joints.

3

Green Lipped Mussel Extract

Green Lipped or Shelled Mussel extract is a very potent anti-inflammatory. Relieves joint pain & inflammation.

4

Omega IT

Our in-house cold-water fish oil blend for increased Omega-3 to help soothe & lubricate joints whilst keeping skin & coat in excellent condition. Supplies important digestible fats & oils.

5

Curcumin Extract

Pure Curcumin extract is used as a potent anti-inflammatory that is highly absorbed (bioavailable) and helps with relieving pain & discomfort.

6

Collagen Type II

Even at low doses, Hydrolysed Collagen Type II assists in joint lubrication, preventing degeneration & reducing inflammation.

7

Manganese Amino Acid Chelate

Helps the body absorb & transport actives throughout the body.

SIZES
250g | 500g | 1kg

Joint Support

A nutritional aid that contains over 6 actives for the management of all joint and cartilage related conditions in dogs and cats. May prevent early degenerative joint disease and also helps to lubricate joints for better mobility.
