

MaxiLax PASTE

Pumpkin • Magnesia • Slippery Elm

1

Pumpkin

Naturally high in fibre, pumpkin draws moisture into the colon and help pass feases and hairballs easier.

2

Psyllium Husk

Also a very high quality natural high fibre source that soothes bowel movements and helps pass stools in the colon.

3

Petroleum Jelly

Pharma grade petroleum jelly helps lubricate and line the digestive tract to help stools pass more smoothly and with ease.

4

Aloe Ferox Gel

Aloe gel can help the colon contract naturally and adds an inflammatory effect to help the digestive tract pass stools through. Safe levels are used for ultimate health.

5

Magnesium Hydroxide

Also called Milk of Magnesia aids in gastric reflux and may assist in moderate constipation. Safe levels are used to prevent intermedication interverance.

7

Olive & Coconut Oil

Both very natural and healthy oils that also improves and soothes bowel movement, both in the stomach, small intestine and colon.

6

Lecithin

A natural emulsifier that improves mucus levels in the bowel system allowing easier passing of stools.

8

Slippery Elm

Naturally regulates the digestive tract and has natural laxative properties.
